Product	Trademark Search (Basic)
Report date	October 01, 2026
Client / matter	Example Client LLC / PREVIEW-001
Data current through	USPTO trademark records through September 28, 2026

This is a conflict screen: it lists marks that look or sound similar to yours and may be worth a closer look. It is not an infringement, registrability or clearance opinion.

Risk Factor Rating

HIGH RISK

We found a very close, active mark covering umbrellas and rain jackets, so this name may be worth a careful look with an attorney before you go further.

Verdict

We searched US federal trademark records for ZORBLAX and similar spellings and sounds, and ran a short web check. An active mark, ZORBLEX, is one letter different and covers umbrellas, rain jackets and backpacks. An identical but inactive ZORBLAX record and an unverified ZORBLAX umbrella website also showed up. This is an automated screen, not a legal opinion.

Points to Discuss With an Attorney

These are automated suggestions to discuss with a qualified attorney. They are not legal advice:

- Ask how the live ZORBLEX record affects your plans. It is one letter apart and lists umbrellas and rain jackets.
- Consider names that do not start with ZORB. Several records share that start.
- Ask whether to look into who runs the ZORBLAX umbrella website. That web result is unverified.
- Ask whether the inactive ZORBLAX filing for umbrellas still matters, and why it ended.
- Ask about checking state records, business names and website names. This screen did not cover them.

Part B: Technical Detail

Notes on the data

- No registration date is shown in the data for any record, including those with registration numbers.
- Serial 99000003 is shown as live with no registration number. This should be checked against the live USPTO record.
- The "sim" values are automated text-similarity scores. The sounds-alike flags are automated phonetic indicators, not legal findings.

ZORBLAX (99000001)

- **Mark and goods:** an identical mark for umbrellas and rain hats, filed in 2008. No registration number or date is shown, and the record is not live.

Per-class view

Class	Records found in this class	Comment
18	ZORBLEX (live), ZORBLAX (not live)	Both list umbrellas.
25	ZORBLEX (live), ZORBLACK (live)	ZORBLEX lists rain jackets; ZORBLACK lists jackets and coats.

3. Other Sources

- **Pending and published applications:** covered only to the extent they appear in the USPTO federal records searched.
- **Scholarly literature, foreign and international publications:** none appear in the evidence.
- **Also not searched:** state trademark registers, business-name registries, domain-name registries and design-mark image similarity.

Web and public-use findings (unverified)

- **W1:** <https://example.com/zorblax-umbrellas>, titled "Zorblax umbrella shop".
 - **Snippet:** "Handmade umbrellas sold as Zorblax."
 - **Relevance:** the same name used for umbrellas, possibly unregistered use. Confidence is medium.
 - **Date basis:** first archived 2022-05-01. This shows only that the page existed in archived form by that date. It does not establish when any use began or whether use continues.
 - **Status:** unverified candidate, date not confirmed.
- **Limits:** the absence of other web results proves nothing about on-sale activity, public use or unregistered use of similar names.

4. Assessment

What drives the High rating

- **ZORBLEX (Serial 99000002, Reg. 9000002):** a live record one letter away from ZORBLAX, flagged as sounding alike, listing umbrellas and rain jackets.
- **Supporting factors:**

- An identical ZORBLAX record for umbrellas exists, although it is not live.
- A live ZORBLACK record covers jackets and coats.
- An unverified website appears to use ZORBLAX for handmade umbrellas, first archived 2022-05-01.

What would lower the rating in a future screen

- A revised mark that does not share the ZORB-/ZORBL- start.
- Different goods that do not overlap with umbrellas and jackets.
- Confirmation from live USPTO records that the ZORBLEX record is no longer live.

None of this is an opinion on whether the mark can be used or registered.

5. Points to Discuss With an Attorney

All of the following are automated suggestions to discuss with a qualified attorney:

1. **ZORBLEX record (99000002 / 9000002):** review the full live USPTO file, including current status, registration date and exact identification of goods.
2. **Same owner across records:** Zorb Outdoors LLC also appears with ZORBLEX PRO in Class 9. Ask what that may mean.
3. **Inactive ZORBLAX filing (99000001):** ask whether to look into its history and whether Old Rain Brands Inc still uses the name.
4. **W1 website:** ask whether to investigate who operates it and whether umbrellas are actually sold under ZORBLAX. The archive date (2022-05-01) is not a confirmed first-use date.
5. **Alternative names:** discuss names that move away from the ZORB- start and similar endings, and consider a fresh screen on any shortlist.
6. **Broader searches:** discuss state registers, business-name and domain registries, foreign registers and marketplaces. None were covered here.
7. **Data inconsistency:** ask about confirming the status of ZORBLEX PRO (99000003), which shows status code 700 without a registration number.

Method and Verification

Marks were found by text-similarity and phonetic matching of your mark and related search terms against USPTO records, and then read by an AI model against your goods and services. Afterwards every serial number, registration number and web address cited in Parts A and B was checked automatically against the retrieved search results, and statements the results do not support were removed or reworded.

Verification: every reference and finding in Parts A and B of this report was checked against the search results retrieved for it; 7 unsupported statements removed or corrected.

Search Scope and Limitations

What this report searched: Text-similarity and phonetic matching against USPTO federal trademark application and registration records (USPTO bulk data). **NOT searched:** state trademark registrations, business names and domain names, foreign and international registrations, and design-mark image similarity. Coverage of very recent filings depends on the date of the last USPTO data update. Web check for unregistered use: up to 10 web searches (6 run) for the same or similar marks on related goods/services. Results are unverified candidates. **NOT** a search of state registers, business-name registries, domain registries or foreign marks.

Data currency: USPTO trademark records are current through September 28, 2026; filings after that date are not included.

This is a conflict screen: it lists marks that look or sound similar to yours and may be worth a closer look. It is not an infringement, registrability or clearance opinion. A gap in these results does not mean none exists. Consult a registered
